

PREFERRED DIALYSIS CENTERS

DuPage Medical Group (DMG) is committed to providing you with the support and resources needed throughout your care. Through our partnership with DaVita, one of the largest kidney care companies in the United States, we are proud to offer patients with chronic and advanced-stage kidney disease, a variety of dialysis treatment options at our preferred dialysis centers located throughout the Chicagoland suburbs.

Each dialysis center is fully-equipped with dedicated nurses and technicians, a social worker and dietitian, who work alongside your nephrologist and primary care physician to coordinate your care.

These facilities offer various dialysis options, including in-center hemodialysis (ICH), home hemodialysis (HHD) or peritoneal dialysis (PD).

Before beginning your dialysis treatments, we recommend attending a free KidneySmart® class to help you better understand the role your kidneys play in your overall health and tips to maintain your kidney function. You will also learn about dietary and lifestyle modifications that can help you throughout treatment.

To sign up for a KidneySmart® class, please visit KidneySmart.org/class or call 888-MYKIDNEY (888-695-4363).
